The world
is changing.
Shouldn't your
navigation system?

Canada's roads are changing all of the time

New subdivisions are being created, developments are being built, areas and roadways are under construction more often than before. That's why it's important to have the latest maps, detours, and emergency information available on your Toyota Navigation System.

The new Toyota navigation system update DVD provides you with expanded coverage that includes 100% of the populated areas throughout all of Canada and most of the United States, additional points of interest, accommodations and things to see while you're on your way.

This new information translates into:

- updated directions and roads across North America
- over 700,000 new Canadian addresses
- over 85,000 kilometres of additional Canadian roads
- over 200,000 new points of interest, for a total of 9 million restaurants, shopping areas, banks and ATMs, gas stations, tourist information centres, theatres, museums, wineries, hotels, and more
- additional emergency numbers including police, hospitals, fire departments as well as Toyota Dealers

How to get rolling with your updated navigation system

For your convenience, the Toyota navigation system upgrade provides all of this information on one specially-formatted DVD.

Ask your Toyota Dealer to install your new navigation system update the next time you have your Toyota serviced – or contact your dealer now to book an appointment.
